

Company profile.

◇ A family business specialised in the production and distribution of natural wood veneers.

Who we are?

Channel Veneers is a family business with **more than 60 years of tradition** dedicated to the commercialization of veneers in the wood industry. Our values are based on offering the best service to our clients through a **carefully selected range of products** and a flexible approach to our client's needs.

We develop some of the most exciting wood veneers available in nature. **Our slicing and splicing factories are strategically located** to provide high quality products all over the world.

02

Our strengths.

We are one of the world's leading manufacturers in terms of production volume, with **13 cutting lines** spread over **4 factories** and a production capacity of more than **60.000.000 m² per year**.

Our industrial group integrates everything **from forestry to semi-finished products**: veneered panels, plywood, sawn wood, floors, etc. This allows us to make better use of wood and increases our competitive.

Product range.

◆ **Natural Veneers**

In Channel Veneers we offer one of the largest number of wood references in the world, working mainly with European and American wood species.

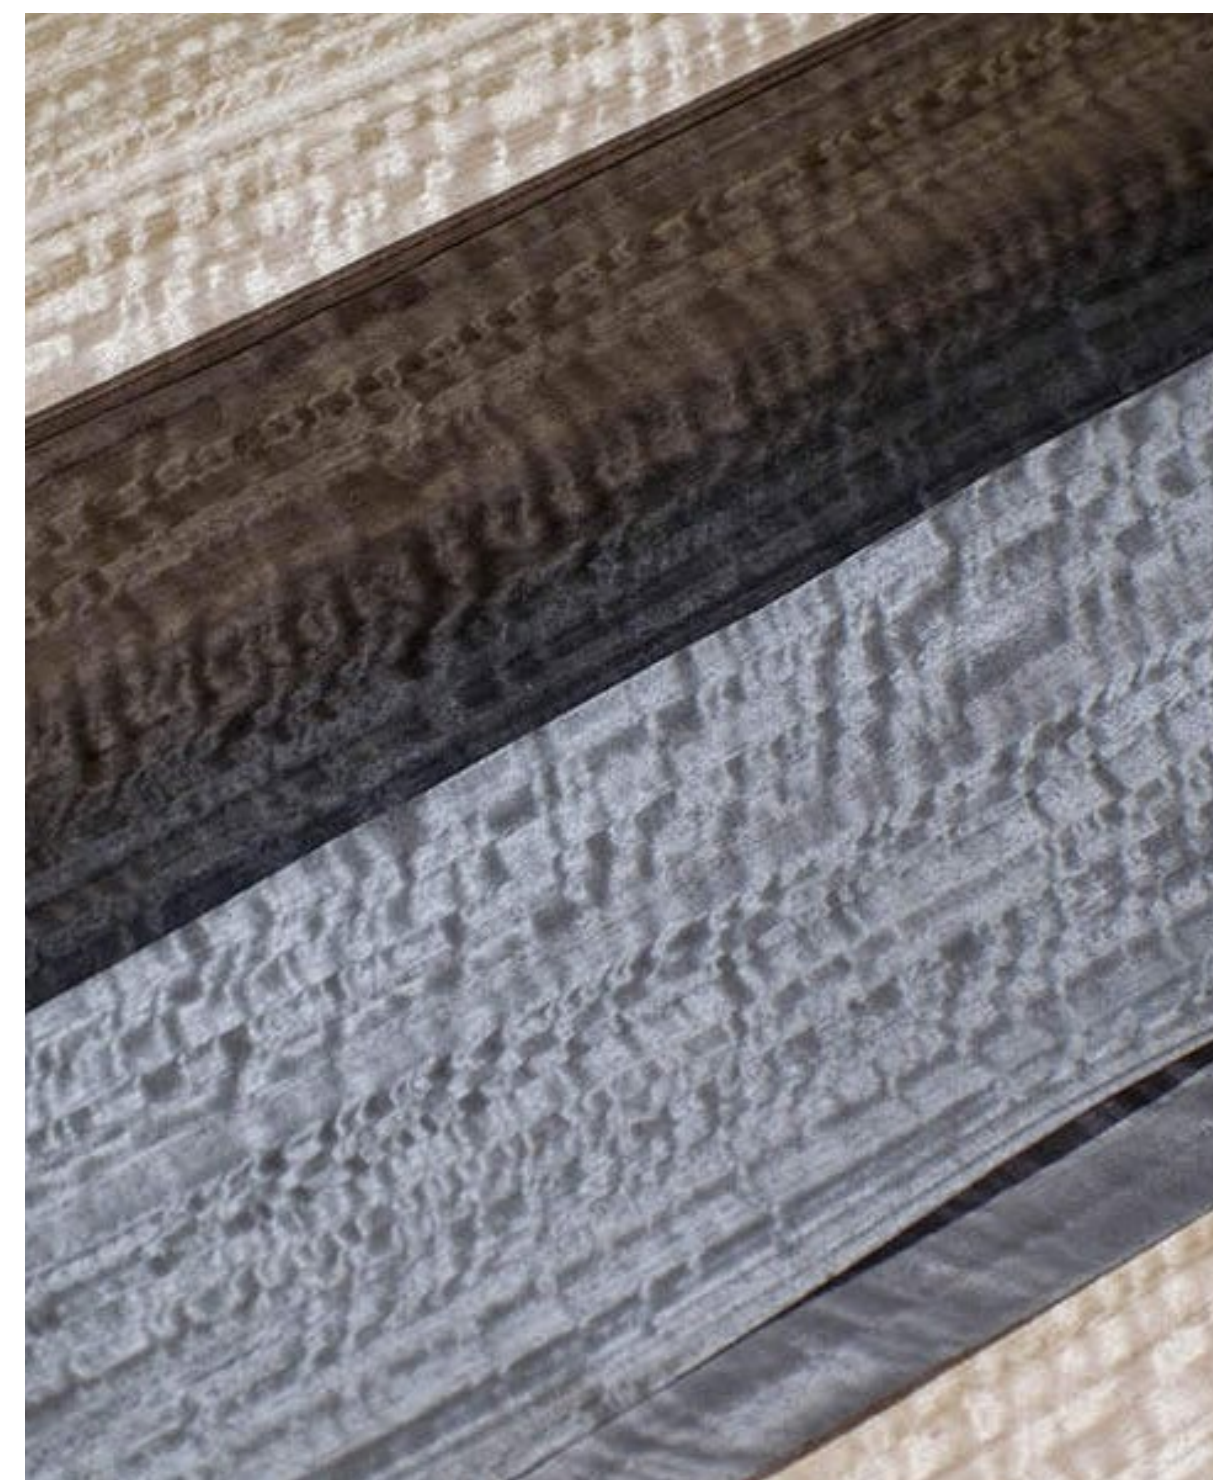

We also offer special veneers that are subject to **additional processes** such as **dying, aging or smoking**. Special logs are available too.

Amongst the most common species you may find: eucalyptus, ash,

chestnut, european oak, beech, walnut, cherry, maple, red oak, white oak, pine, tino and many others.

◆ **Veneer Spliced Faces**

In our splicing facilities we provide **book matched, slip matched or random matched veneer faces** available in different dimensions. Applications are mainly furniture or wood paneling.

03

Markets & Logistics

- ◇ Our veneers have been present for years in the main markets of the world.
- ◇ Our logistics organization allows us to deliver efficiently anywhere.
- ◇ We have a **sales team** that serves customers and specialized distributors in the **5 continents**.
- ◇ We manufacture veneer at the origin of the wood, minimizing logistics costs.

- **Romania:**
Oak/ Beech/ Ash.
- **Spain:**
Eucalyptus/ Pine/ Ash/ Oak
- **USA:**
